25^{year} PROMOTION

ThermoGrip® Shrink technology

Every new shrink machine comes with the modern touchscreen control for free

... with 3 clicks to the optimal shrinking process

You can shrink in automatic mode or in manual mode; individual shrink parameters can be set and the shrink process can find the right parameters by reading the data chips.

In automatic mode the total shrink process can be carried out securely, easily and quickly with 3 clicks.

FAST

SMART

INTELLIGENT

25 years shrink chucks ThermoGrip® Touchscreen control

Valid June 2024 until the end of November 2024

Features in the main menu

The touch display has convenient graphic menu navigation and offers eight clearly structured main menu items to the user:

PARAMETER MODE

Automatic mode by selecting external geometry and diameter

LIBRARY*

Selection of individual shrink parameters e.g. for special geometries

CHIP SYSTEM*

Shrinking with data carriers (optional). Shrink parameters are imported by the data chip. Fully automatic shrink operation possible.

INFOPOINT

Here the machine can be shut down and it is also possible to carry out several operational and service tests.

LIST OF FAVOURITES

In the shrink history the previous shrink processes are listed.

TOOL SET UP*

Setting up of individual shrink parameters, e.g. for special geometries

MACHINE SETTINGS

Configuration of the machine parameters

QUICK ADJUSTMENTS

e.g. activation/deactivation of hold or hold-back time

* In order to be able to use this option, it has to be activated.

Promotion possible for the following new appliances

Ident No.	Designation
5110995	ISG2410WK1-8-FS-BIL
5075418	ISG3410WK1-11-FS-BIL
5072341	ISG3410WK4-11-WS-BIL

Can also be ordered ISGZ3410-Code-TME

Setting up and managing your own tool holders

In addition to the basic features, the Tool MEMORY Editor (TME) Ident No. 5157113 can be activated as an option:

- Customized tool descriptions including the corresponding shrink parameters can be set up, managed and saved directly onto the Touch Display
- A PC is no longer necessary

You already have a shrinking device and want to upgrade it?*

UPGRADE TO TOUCH DISPLAY** FAST – SMART – INTELLIGENT

Hardware and Software Update incl. TME / RFID-Option providing a considerable increase in functions

Touch Display

* Upgrade is not part of the promotion. Please contact us for a retrofit.

** Can be booked after a technical check in connection with a service
